

# TOMASZ GORA

## Full-Stack Developer

**Frontend:** PHP & Laravel, React, Astro, HTML, CSS, JavaScript

**Backend:** Go, Linux, Bash, Containers, SQL and CMS

Both Traditional and AI-based workflows

Clean Code & Accessibility-Focused

## ABOUT ME

Versatile Software Developer with a BA in Web & Mobile Development and hands-on experience delivering fast, accessible websites using various stacks. Known for building real-world, CMS-driven projects with clean, maintainable code. Quick to learn and adapt, using AI coding tools like Aider and Codex to streamline work. Strong communication skills, solid tech foundations, and a background in customer-facing roles make me a reliable, well-rounded team player.

Founded and ran an online merchandise store; managed design, customer interaction, order processing, logistics, finance; handled invoicing, client communication, and delivery operations.

## FEATURED PROJECTS

### Kirkenduff Community Collective Website

*Stack: Astro, React, Tailwind, Directus CMS, Docker*

- Developed as part of a university industrial placement.
- Performant, accessible, CMS-backed website for a local NGO client. The project has been anonymized for portfolio with fictional data.

### Notable

*Stack: PHP, Laravel, Tailwind, PostgreSQL, Docker*

- A note-taking and idea-organization app calling an AI endpoint to convert handwritten notes to markdown
- Full-stack development focus; prioritizing UX and responsiveness.

### PhoneZone (2024)

*Stack: PHP, MySQL, Docker*

- Page, simple cart system and custom-built admin panel for a conceptual mobile phone retailer.

## SOFTWARE & TOOLS

Linux (Fedora as daily driver, Debian and derivatives on the server, Arch on the Steam Deck), Windows, VS Code, WSL, JetBrains IDEs, Vim/Neovim, Git/GitHub, SSH, Tmux, Bash scripting, Docker, Caddy, Apache, Nginx, WordPress (legacy familiarity), Figma, Photoshop, image optimization, Microsoft Office Suite, LibreOffice, Browser DevTools, Log viewers, CLI tools

## EDUCATION

University of the West of Scotland – *Paisley, UK*

BA – Web and Mobile Development  
Completed with strong academic standing

Edinburgh College – *Edinburgh, UK*

HND – Software Development HNC –  
Software Development  
Grade A in both qualifications.

School of Art and Design – *Lublin, Poland*

Studied Digital Graphic Design (Graduate without diploma)

## KEY SKILLS

### Full-stack web development

- HTML, CSS, JavaScript (JS), PHP, React, Tailwind CSS, Components, semantic markup, accessible and responsive UI, Laravel, MySQL, SQLite, CMS systems, SQL databases,
- Basics of deployment, designing, prototyping and implementing workflows
- Git, VSCode, JetBrains, Neovim, Tmux
- Server management, Caddy, Apache, Nginx
- AI-assisted dev tools (Claude Code, Aider, OpenCode, MCP agents)
- At the same time traditional problem tracking, solving and debugging on my own
- Problem-solving & debugging
- Terminal & CLI proficiency
- Self-motivated & continuously learning

## SOFT SKILLS

- Fluent in English and Polish
- Excellent problem-solving mindset
- Passionate about software craftsmanship and documentation
- Adaptable, fast learner with strong drive
- Efficient in high-pressure environments
- Collaborative, positive communicator with good time management

## HIGHLIGHTS

- Real-world & concept projects in portfolio
- Strong in Git, Linux, CLI workflows,
- Proven support & retail experience
- Adaptive, fast-learning developer focused on usability and clean code
